### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: While the storage of liquid from a distillation column for vaporization when needed is clearly known, no teaching can be found of using the heat inventory from a process heat exchanger to provide at least a portion of the heat for the vaporization. Heat inventory is seen as "stored heat, from the or at least one of the heat exchangers. There is a temperature gradient between the "warm" end and the "cold" end of the or each heat exchanger. Heat stored in the metal of a heat exchanger may be used to vaporise liquefied first gas inventory", as found in paragraph 14 of the specification. This is seen to differentiate from the prior art which uses vaporizers which are heated using a fluid.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C Doerrler whose telephone number is (571) 272-4807. The examiner can normally be reached on Monday-Friday 6:30-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Denise Esquivel can be reached on (571) 272-4808. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
